Soft Tissue Pathology:

A One-on-One Tutorial

ON-DEMAND, USB & DVD

16.0 AMA PRA Category 1 Credit(s)™

Release Date: May 15, 2019

About This CME Teaching Activity

This seminar is designed to provide a practical yet comprehensive review of soft tissue tumor pathology. A pattern-based approach to diagnosis, including an emphasis on differential diagnosis, as well as the use of ancillary diagnostic methods (especially immunohistochemistry) will be discussed.

Target Audience

This CME activity is primarily intended and designed to educate pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 16.0 AMA PRA Category 1 $Credit(s)^{TM}$. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)™ for this activity may be claimed until May 14, 2022.

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Apply a pattern-based approach to the differential diagnosis of soft tissue tumors.
- Describe the evolution of diagnostic immunohistochemistry for soft tissue tumors.
- Utilize immunohistochemistry for accurate diagnosis of soft tissue tumors.
- Order appropriate molecular tests for accurate diagnosis of soft tissue sarcomas.
- Recognize histologic and genetic subtypes of gastrointestinal stromal tumors.
- Discuss the differential diagnosis of mesenchymal tumors of the gastrointestinal tract.
- Recognize recently described mesenchymal tumors of the head and neck.
- Discuss the differential diagnosis of cutaneous spindle cell tumors.

No special educational preparation is required for this CME activity.

Faculty

Jason L. Hornick, M.D., Ph.D.
Director of Surgical Pathology
Director, Immunohistochemistry Laboratory
Brigham and Women's Hospital
Professor of Pathology
Harvard Medical School
Boston. MA

Program

Session 1

Introduction to Soft Tissue Tumor Pathology: Classification, Grading, Immunohistochemistry, and Molecular Genetics

The Evolution of Immunohistochemistry for Soft Tissue Tumors: From Differentiation to Molecular Genetics

Session 2

The Most Common Spindle Cell Tumors of Deep Soft Tissue: Differential Diagnosis and Best Markers

Subclassification of Pleomorphic Sarcomas: How and Why Should We Care?

Session 3

An Approach to Epithelioid Soft Tissue Tumors: It's Getting Easier

Myxoid Tumors of Soft Tissue: Don't Let the Matrix Get in the Way

Session 4

An Approach to Round Cell Sarcomas: From Ewing to CIC-DUX4

Intermediate Vascular Tumors: A Pattern-Based Approach

Session 5

Benign Nerve Sheath Tumors: Beyond Neurofibroma and Schwannoma

Gastrointestinal Stromal Tumors: From KIT to Succinate Dehydrogenase

Session 6

Mesenchymal Tumors of the Gastrointestinal Tract (Other than GIST)

Differential Diagnosis of Cutaneous Spindle Cell Tumors: Location, Location, Location

Session 7

Soft Tissue Tumors of the Head and Neck: Virtual Slide Seminar

Superficial Soft Tissue Tumors: What's New?

Histiocytic and Dendritic Cell Tumors: An Update

Session 8

Metastatic Carcinoma of Unknown Prumary: Diagnostic Approach Using Immunohistochemistry

Gastrointestinal Lymphomas: A Review of the Surgical Pathologist

Session 9

Colorectal Polyps: A Practical Approach
Hereditary Colon Cancer Predisposition
Syndromes: What Do We Need To Know?
