Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Educational Symposia designates this enduring material for a maximum of 20.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

SA-CME: Credits awarded for this enduring activity are designated “SA-CME” by the American Board of Radiology (ABR) and qualify toward fulfilling requirements for Maintenance of Certification (MOC) Part II: Lifelong Learning and Self-assessment. All activity participants are required to pass a written or online test with a minimum score of 70% in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)™ for this activity may be claimed until April 30, 2021.

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975. This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives
At the completion of this CME teaching activity, you should be able to:
• Identify the anatomy of temporal bone, skull base, suprahyoid neck, and infrahyoid neck.
• Review anatomy and common pathology of the cranial nerves and brachial plexus.
• Identify the imaging features and clinical significance of perineural tumor spread.
• Review the anatomy, features and pathology of the lymphatic system.
• Recognize image features of lymphadenopathy.
• Describe the patterns of tumor spread associated with nasopharyngeal cancers.
• Determine the optimal imaging techniques for evaluating head and neck pathology.
• Describe obstacles associated with post-treatment imaging in head and neck cancer, and how to minimize them.

No special educational preparation is required for this CME activity.

About This CME Teaching Activity

This CME activity brings together some of our most popular lectures on head & neck imaging. It combines clinical case studies with comprehensive reviews of the latest trends, protocols and advances in clinical diagnosis, treatment planning and patient management. Faculty share techniques, tips and pearls through case-based presentations.

2018 Classic Lectures in Head & Neck Imaging

Designated for SA-CME

Release Date: May 1, 2018

Program

**Session 1**

**Extracranial Spaces of the Head and Neck**

Lomas, Bumps, and Holes: Canonical Imaging Features in the Non-subspecialist - Clinical Approach

Jonathan L. Eavey, M.D., FACR

**Session 2**

**Oral Imaging - Part 1**

Oral Imaging for the General Radiologist II

Richard H. Wiggins, III, M.D., CIIP, FSIIM

**Session 3**

**Imaging of Orbital Tumors**

Glanz, S.K., M.D.

**Session 4**

**Imaging of Cranial Nerves I-VI**

E Thew, J.A., M.D.

**Session 5**

**Thyroid Nodules and Its Subtypes**

Capone, L.J., M.D.

**Session 6**

**Neuroimaging of Skin and Soft Tissue**

Moussa, N.A., M.D.

**Session 7**

**Central Skull Base: Pathology and Anatomy**

Lewinnek, G.E., M.D.

**Session 8**

**Imaging the Patient with Hearing Loss**

Dugan, P.B., M.D.

**Session 9**

**Imaging of Temporal Bone Neoplasia**

Mehr, A., M.D.

**Session 10**

**Neuroimaging of Pancreatic Tumor Spread**

Lerner, S., M.D.

**Session 11**

**Neuroimaging of Peripheral Tumor Spread**

Russo, G., M.D.

**Session 12**

**Imaging in Ophthamolog and Cerebral Cystic Disease**

Lim, J., M.D.

**Session 13**

**Imaging of Cortical and Hypophyseal Cancer**

Abel, J., M.D.

**Session 14**

**Imaging in Hypothalamic and Pituitary Disorders**

Larson, A., M.D.

**Session 15**

**Neuroimaging of垂体Tumor Spread**

Lerner, S., M.D.

**Session 16**

**Thyroid Nodules and Its Subtypes**

Capone, L.J., M.D.

**Session 17**

**Imaging of Skin and Soft Tissue**

Moussa, N.A., M.D.

**Session 18**

**Central Skull Base: Pathology and Anatomy**

Lewinnek, G.E., M.D.

**Session 19**

**Imaging the Patient with Hearing Loss**

Dugan, P.B., M.D.

**Session 20**

**Imaging of Temporal Bone Neoplasia**

Mehr, A., M.D.

**Session 21**

**Neuroimaging of Pancreatic Tumor Spread**

Lerner, S., M.D.

**Session 22**

**Imaging in Ophthamolog and Cerebral Cystic Disease**

Lim, J., M.D.

**Session 23**

**Imaging of Cortical and Hypophyseal Cancer**

Abel, J., M.D.

**Session 24**

**Imaging in Hypothalamic and Pituitary Disorders**

Larson, A., M.D.
