Educational Symposia
Accreditation
Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Educational Symposia designates this enduring material for a maximum of 22.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
SA-CME: Credits awarded for this enduring activity are designated “SA-CME” by the American Board of Radiology (ABR) and qualify toward fulfilling requirements for Maintenance of Certification (MOC) Part II: Lifelong Learning and Self-assessment.
All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.
AMA PRA Category 1 Credit(s)™ for this activity may be claimed until June 30, 2021.
This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.
This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives
At the completion of this CME teaching activity, you should be able to:
• Assess MR images in patients with internal derangements of peripheral joints.
• Articulate the anatomic features fundamental to accurate interpretation of the MR imaging findings in these disorders.
• Formulate a reasonable differential diagnostic list and be able to identify the most likely diagnosis.
• Understand the pathogenesis and imaging findings associated with common and important disorders that affect all joints.

No special educational preparation is required for this CME activity.

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975. This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives
At the completion of this CME teaching activity, you should be able to:

• Assess MR images in patients with internal derangements of peripheral joints.
• Articulate the anatomic features fundamental to accurate interpretation of the MR imaging findings in these disorders.
• Preclude a reasonable differential diagnostic list and be able to identify the most likely diagnosis.
• Comprehend the pathogenesis and imaging findings associated with common and important disorders that affect all joints.

No special educational preparation is required for this CME activity.

About This CME Teaching Activity
This CME activity provides an update of current information on MR imaging in the assessment of musculoskeletal disorders. Essential anatomy, physiology and pathology are emphasized that explain imaging findings in disorders of the shoulder, elbow, wrist, hand, hip, knee, ankle and foot. MR imaging findings in the assessment of common problems in peripheral joints are compared to those derived from other imaging methods.

Target Audience
The target audience is practicing radiologists, orthopedic surgeons, rheumatologists, and other physicians interested in musculoskeletal disorders.

Educational Objectives
At the completion of this CME teaching activity, you should be able to:

• Assess MR images in patients with internal derangements of peripheral joints.
• Articulate the anatomic features fundamental to accurate interpretation of the MR imaging findings in these disorders.
• Providize a reasonable differential diagnostic list and be able to identify the most likely diagnosis.
• Comprehend the pathogenesis and imaging findings associated with common and important disorders that affect all joints.

No special educational preparation is required for this CME activity.
